

Animal Water Feeding Bottles

FOR FEEDING WATER TO EXPERIMENTAL ANIMALS

Orchid Scientific produces a wide range of water bottles. The bottles are made of non-transparent Polypropylene (PP), transparent Polycarbonate (PC) & Polysulfone (PS) with Silicon Bush OR SS Cap.

**Designed To Feed
Water To Experimental
Animals**

FEATURES:

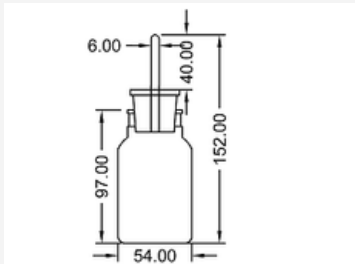

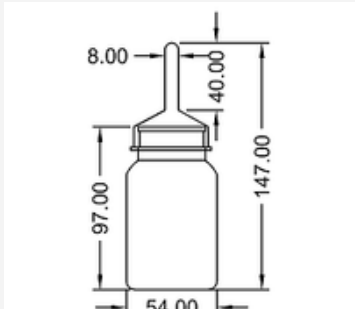

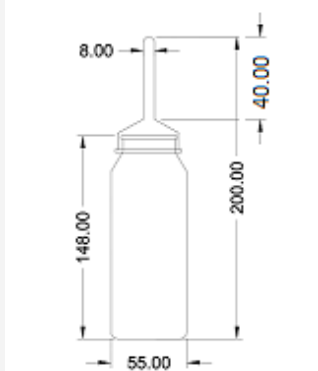

- Autoclavable*
- Food grade material.
- Leakage proof- No water leakage from bottle.
- Assured water delivery- Each bottle cap is assured for proper water delivery.
- Consistent thickness.
- Wide mouth to aid filling and emptying, whilst also ensuring effective washing.
- Volume graduations to aid volume measurements.
- Vacuum style, without ball.

Options of Cap: Silicon bush with Press fit Style OR S.S. press fit Cap with silicon gasket Press fit Style.
